

What's up

- | | |
|-------------------------------|---------------------------|
| 1. About/history | 8. Components |
| 2. Getting started | 9. Dependency injection |
| 3. TypeScript | 10. Directives |
| 4. Pipes | 11. Backend communication |
| 5. Testing introduction | 12. Routing |
| 6. Forms | 13. Internals |
| 7. UI testing with Protractor | |

Before we start

- The material has been updated as much as possible (March 29th, 2020)
- At the moment of writing, we're on **Angular 9**

Angular release cadence

Angular adheres to Semver 2.0.0

major.minor.patch

- A major release every 6 months
- 1-3 minor releases for each major release
- A patch release almost every week

Every major release is supported for 18 months
